Vision Beyond AUS

40,000 Milestone

From a humble beginning in December 2011 when we completed eye surgeries for 180 suffering people in Rishikesh, India. Vision Beyond AUS has now completed over 32,000 eye surgeries for men, women and children who live in miserable poverty over four countries including; India, Myanmar, Nepal and Cambodia.

These people had no hope of seeing again or living a normal life in its most basic form, without the help provided by Vision Beyond AUS. Thank you to all of you for your continued support and being a part of this amazing effort.

Help us reach our next target of 40,000 as we continue to push for our stated goal of 100,000 free surgeries for men, women and children before we carry on from there.

**This year we hope to raise \$100,000 to meet our goals.
We need your help and generosity.**

Fiducian thanks you for all of your support
